## SKILLS

git

Github

HTML

CSS

Javascript

NodeJS

MongoDB

Postman API tester

Express

JWT

Basic of Data Structure  
and Algorithm

Redis

AWS

## LANGUAGES

English

Full Professional Proficiency

Hindi

Native or Bilingual Proficiency

korean

Limited Working Proficiency

## INTERESTS

Communicating with  
people

Learning new Languages

Public Speaking

Attentive to details

## EDUCATION

### Bachelor Of Arts

Lalit Narayan Mithila University,Darbhangra

05/2020 - 06/2023

Courses

- Political Science Honours

### Higher Secondary Education

Holy Mission High School, Samastipur

04/2019 - 03/2020

Courses

- PCM (Science Stream)

## WORK EXPERIENCE

### Trainee At FunctionUp FunctionUp

03/2023 - Present

India

Achievements/Tasks

- I am working here as a Trainee in Backend development in which I worked on five projects using Express, NodeJS ,MongoDB and Redis for caching , JSONWebToken for authentication and authorization

## PERSONAL PROJECTS

### Mini Blogging Site Project - June 2023

- It is blogging site in which we can register and login user and user can create ,get, update and delete the blog.
- Technologies used: **Express, NodeJS, MongoDB, JWT**
- [Project Github Link](#)

### URL Shortner- June 2023

- In this project we create short URL for any long URL. Users are redirected to the original URL when they hit these short links. we use the caching to store the data.
- Technologies Used: **Express, NodeJS, MongoDB, Redis, Axios, shortID**
- [Project Github Link](#)

### Customer Site - June 2023

- This project are designed to serve a real-world scenario where a business wants to manage customer information and card data.
- Technologies used :**Javascript, NodeJS, ExpressJS, MongoDB**
- [Project Github Link](#)

### Open To Intern -June 2023

- the project aims to manage college and intern data, allowing the creation of college and intern documents, retrieval of college details, and listing interns based on the requested college.
- Technologies used: **Javascript, NodeJS, ExpressJS, MongoDB, Axios**
- [Project Github Link](#)

### Book Management - June 2023

- This project aims User Registration and Login, Real-Time Updates , Book Searching and Filtering , Book Reviews and Ratings .
- Technologies used: **Javascript, NodeJS, ExpressJS, JWT, MongoDB**
- [Project Github Link](#)
